ОЦЕНОЧНЫЕ СРЕДСТВА

для текущего контроля успеваемости и промежуточной аттестации обучающихся
по дисциплине

Профессиональный иностранный язык

(наименование учебной дисциплины)

08.04.01 Строительство, направленность (профиль) «Промышленное и
гражданское строительство: проектирование»

(код и наименование ОПОП ВО)

I. ОЦЕНОЧНЫЕ СРЕДСТВА ДЛЯ ТЕКУЩЕГО КОНТРОЛЯ УСПЕВАЕМОСТИ

1.1 ВОПРОСЫ ДЛЯ ДИСКУССИИ

I семестр

Тема 1. Профессиональная коммуникация. Научная статья

1. Каким образом можно определить понятие «профессиональная коммуникация»?
2. Каковы особенности научного текста?
3. Что относится к существенным характеристикам научного текста?
4. Можно ли моделировать текст?
5. Что отличает «термин» от «не термина»?
6. «Перевод» является процессом или результатом?
7. Нужно ли анализировать текст перед тем, как начать выполнение его перевода?
8. Каковы элементы научной статьи?
9. Чем отличается аннотирование от реферирования?
10. Каковы особенности научной статьи как объекта перевода?

Тема 2. Трудности перевода научного текста. Неличные формы: причастие.

1. Каковы особенности неличных форм глагола в английском языке?
2. В чем состоит разница между зависимыми и независимыми оборотами?
3. Какие формы имеет причастие в английском языке?
4. В какой роли может быть Participle I в предложении?
5. Что такое причастный оборот?
6. Как образуется Participle II?
7. Какую роль может выполнять Participle II и его обороты в предложении?
8. Какова разница между зависимым и независимым причастными оборотами?
9. «Absolute Participle Construction» – это зависимый или независимый оборот?
10. Что значит обороты «Дополнение с Participle» и «Подлежащее с Participle»?

Тема 3. Трудности перевода научного текста. Неличные формы: герундий

1. Какие формы имеет Gerund?
2. Каковы функции Gerund в предложении?
3. Какие существуют формы (части речи) слов с окончанием -ing?
4. Как не спутать Gerund с другими формами с окончанием -ing?
5. Что такое «Зависимый герундиальный оборот»?

6. Что такое «Независимый герундиальный оборот»?
7. Как отличить зависимый герундиальный оборот от независимого?
8. Чем Gerund отличается от причастия?
9. В чем состоят сложности употребления Gerund?
10. Какие выводы можно сделать по употреблению Gerund?

Тема 4. Трудности перевода научного текста. Неличные формы: инфинитив. МП «Конференция».

1. Что такое Infinitive?
2. Как образуются простые и сложные формы Infinitive?
3. Какую роль может играть Infinitive в предложении?
4. Когда Infinitive употребляется без частицы “to”?
5. Какова разница между зависимыми и независимыми инфинитивными оборотами?
6. Является ли Absolute Infinitive Construction зависимым или независимым оборотом и как его распознать?
7. Что такое «оборот «Дополнение с Infinitive»»?
8. Как распознать оборот «Подлежащее с Infinitive»?
9. Является ли оборот «for + существительное + инфинитив» зависимым или независимым?
10. Как переводятся предложения с оборотом «for + существительное + инфинитив»?

Шкала оценивания: 3 балльная.

Критерии оценивания: 3 балла (или оценка «отлично») выставляется обучающемуся, если он принимает активное участие в беседе по большинству обсуждаемых вопросов (в том числе самых сложных); демонстрирует сформированную способность к диалогическому мышлению, проявляет уважение и интерес к иным мнениям; владеет глубокими (в том числе дополнительными) знаниями по существу обсуждаемых вопросов, ораторскими способностями и правилами ведения полемики; строит логичные, аргументированные, точные и лаконичные высказывания, сопровождаемые яркими примерами; легко и заинтересованно откликается на неожиданные ракурсы беседы; не нуждается в уточняющих и (или) дополнительных вопросах преподавателя.

2 балла (или оценка «хорошо») выставляется обучающемуся, если он принимает участие в обсуждении не менее 50% дискуссионных вопросов; проявляет уважение и интерес к иным мнениям, доказательно и корректно защищает свое мнение; владеет хорошими знаниями вопросов, в обсуждении которых принимает участие; умеет не столько вести полемику, сколько участвовать

в ней; строит логичные, аргументированные высказывания, сопровождаемые подходящими примерами; не всегда откликается на неожиданные ракурсы беседы; не нуждается в уточняющих и (или) дополнительных вопросах преподавателя.

1 балл (или оценка «удовлетворительно») выставляется обучающемуся, если он принимает участие в беседе по одному-двум наиболее простым обсуждаемым вопросам; корректно выслушивает иные мнения; неуверенно ориентируется в содержании обсуждаемых вопросов, порой допуская ошибки; в полемике предпочитает занимать позицию заинтересованного слушателя; строит краткие, но в целом логичные высказывания, сопровождаемые наиболее очевидными примерами; теряется при возникновении неожиданных ракурсов беседы и в этом случае нуждается в уточняющих и (или) дополнительных вопросах преподавателя.

0 баллов (или оценка «неудовлетворительно») выставляется обучающемуся, если он не владеет содержанием обсуждаемых вопросов или допускает грубые ошибки; пассивен в обмене мнениями или вообще не участвует в дискуссии; затрудняется в построении монологического высказывания и (или) допускает ошибочные высказывания; постоянно нуждается в уточняющих и (или) дополнительных вопросах преподавателя.

1.2 ВОПРОСЫ И ЗАДАНИЯ В ТЕСТОВОЙ ФОРМЕ

Тест №1

54. Other interesting aspect of tachistopic training in recent years has been the newfound use by professional teams.
A B C D
55. Only about 3 percent of oil wells actually do a profit.
A B C D
56. Dislike sumac with red berries, sumac with white berries is poisonous.
A B C D
57. Pittsburgh has reduced its smog by requiring more complete oxidation of fuel in cars, and others cities can do the same thing.
A B C D
58. Alike all other mammals, dolphins have lungs.
A B C D
59. Up to World War II almost all important research in physics had been made in universities with only university funds for support.
A B C D
60. Because the plan that was made yesterday is no longer feasible, the manager had to choose another alternatives.
A B C D
61. Particles with unlike charges attract each other, while particles with alike charges repel each other.
A B C D
62. One another surprising method of forest conservation is controlled cutting of trees.
A B C D
63. The body depends in food as its primary source of energy.
A B C D
64. Regular programming was interrupted to broadcast a special news bulletins.
A B C D
65. Sulfa drugs had been used to treat bacterial infection until penicillin becomes widely available.
A B C D
66. Plans for both the International Monetary Fund or the World Bank were drawn up at the Bretton Woods Conference.
A B C D
67. Seldom Antarctic icebergs will move far enough north to disturb South Pacific shipping lanes.
A B C D

68. In 1958, a largest recorded wave, with a height of 500 meters, occurred in Lituya Bay, Alaska.

69. Exercise in swimming pools is particularly helpful because of the buoyant effect water.

70. Operas can be broadly classified as either comedies or they are tragedies.

71. Tungsten has the highest melting point of all metals, and for this reason it is often use in equipment that must withstand high temperatures.

72. Whereas there are forty-three ant species in Great Britain, the same amount of ant species can be found in a single tree in Peru.

73. People voice theirs opinions first in small groups or among friends and acquaintances.

74. Inside the Lincoln Memorial is a large statue of Lincoln make from white marble.

75. Detailed photometric data of the area just north of Triton's equatorial region indicate the existence of a thin, transparent layers of frost.

76. U.S. census figures indicate that people with only an elementary education can earn just half as much as college graduations.

Correct (C) or incorrect (I).

77. The runner did a strong effort to increase her speed in the mile race.

78. It is comforting to think that your work can make a difference.

79. His grade was not very good because he had not done his homework.

80. In this job you will make more money than in your previous job.

81. He was unable to do dinner because no one had done the lunch dishes.

82. The new piece that the pianist is preparing is unlike any she has ever played before.

83. Like the Washington Zoo, the San Diego Zoo had several panda bears.
84. The insurance package offered by that company is exactly alike the package our company offers.
85. Any further work done in a like fashion will be rejected.
86. It is unfortunate that the covers for this year's and last year's albums are so alike.
87. You should pack another pair of shoes in case that pair gets soaked.
88. It is difficult to find others workers who are willing to work such long hours.
89. Since the lamp you wanted is out of stock, you must choose another.
90. The other desk clerk must have put that message in your mailbox.
91. If your identification card is lost or stolen, you cannot get another.
92. Although the two signatures are supposed to be exactly the same, they are not at all like.
93. The decorators did the shopping for the material and made curtains for the windows.
94. Before the administrator reads the stack of papers on his desk, he should sign the others that are on the file cabinet.
95. The committee is doing the arrangements for the Saturday evening banquet.
96. When he made several other big mistakes, he did his apologies to the others in the office.
97. She is studying to be an actress in films.
98. My neighbour was arrested for throwing rocks through windows.
99. We have machinery that prints ten pages each minute.
100. Teacher has many students during a semester.

Шкала оценивания результатов тестирования: в соответствии с действующей в университете балльно-рейтинговой системой оценивание результатов промежуточной аттестации обучающихся осуществляется в рамках 100-балльной шкалы, при этом максимальный балл по промежуточной аттестации обучающихся по очной форме обучения составляет 36 баллов, по очно-заочной и заочной формам обучения – 60 баллов (установлено положением П 02.016).

Максимальный балл за тестирование представляет собой разность двух чисел: максимального балла по промежуточной аттестации для данной формы обучения (36 или 60) и максимального балла за решение компетентностно-ориентированной задачи (6).

Балл, полученный обучающимся за тестирование, суммируется с баллом, выставленным ему за решение компетентностно-ориентированной задачи.

Общий балл по промежуточной аттестации суммируется с баллами, полученными обучающимся по результатам текущего контроля успеваемости в течение семестра; сумма баллов переводится в оценку по дихотомической шкале следующим образом:

Соответствие 100-балльной и дихотомической шкал

Сумма баллов по 100-балльной шкале	Оценка по дихотомической шкале
100-50	зачтено
49 и менее	не зачтено

Критерии оценивания результатов тестирования: Каждый вопрос (задание) в тестовой форме оценивается по дихотомической шкале: выполнено – 1 балла, не выполнено – 0 баллов.

1. Минипроект «Конференция 1»

Цель: создание квазипрофессионально обучающей среды «Конференция»

Задачи: разработать презентацию и доклад по прочитанной и переведенной статье по специальности

Этапы:

1. Выбор научной статьи по специальности (Articles 1-10).
2. Перевод статьи (Articles 1-10).
3. Составление схемы статьи ((Articles 1-10).
4. Написание реферата статьи (Articles 1-10).
5. Написание аннотации к статье (Articles 1-10).
6. Подготовка презентации и доклада (Articles 1-10).
7. Презентация статьи на конференции – защита

Roles:

- conference speaker;
- conference participants.

Role play concept:

1. Conference speaker is to provide a flow of the whole conference. Prepares an agenda of the conference. Meets the participants, organizes the meeting, and coffee-break.

Outcome:

The players are to outline the key issues associated with assessment of the production and use of engineered/synthetic building materials and to present examples of environmental and public health safety threats and efficient ways to eliminate them.

2. Минипроект «Конференция 2»

Цель: создание квазипрофессионально обучающей среды «Конференция»

Задачи: разработать презентацию и доклад по прочитанной и переведенной статье по специальности

Этапы:

1. Выбор научной статьи по специальности (Articles 1-10).
2. Перевод статьи (Articles 1-10).
3. Составление схемы статьи ((Articles 1-10).
4. Написание реферата статьи (Articles 1-10).
5. Написание аннотации к статье (Articles 1-10).
6. Подготовка презентации и доклада (Articles 1-10).
7. Презентация статьи на конференции – защита

Roles:

– conference participants.

Role play concept:

1. Participants 1-10 come to the conference. Make speeches of Articles 1-10, give their presentations, answer the questions of other participants.

Outcome:

The players are to outline the key issues associated with assessment of the production and use of engineered/synthetic building materials and to present examples of environmental and public health safety threats and efficient ways to eliminate them.

3. Минипроект «Конференция 3»

Цель: создание квазипрофессионально обучающей среды «Конференция»

Задачи: разработать презентацию и доклад по прочитанной и переведенной статье по специальности

Этапы:

1. Выбор научной статьи по специальности (Articles 1-10).
2. Перевод статьи (Articles 1-10).
3. Составление схемы статьи ((Articles 1-10).
4. Написание реферата статьи (Articles 1-10).
5. Написание аннотации к статье (Articles 1-10).
6. Подготовка презентации и доклада (Articles 1-10).
7. Презентация статьи на конференции – защита

Roles:

– Members of Construction Committee

Role play concept:

1. Members of the Construction committee. Take part in the discussion of the reports. Ask questions to the participants.

Outcome:

The players are to outline the key issues associated with assessment of the production and use of engineered/synthetic building materials and to present examples of environmental and public health safety threats and efficient ways to eliminate them.

Шкала оценивания: 2-балльная.

Критерии оценивания:

2 балла выставляется обучающемуся, если он принимает активное участие в деловой игре и полностью справляется с порученной ему ролью, выполняя требуемые от него трудовые действия и проявляя способность применять на практике необходимые для этого знания, умения и навыки; легко откликается на развитие и неожиданные повороты игрового «профессионального» сюжета, создаваемого преподавателем в режиме реального времени; свободно и эффективно взаимодействует с другими участниками игры (своими «деловыми» партнерами); задания, полученные в ходе игры, выполнены точно и правильно; при обсуждении результатов игры демонстрирует способность к профессиональной саморефлексии.

1 балл выставляется обучающемуся, если он хорошо ориентируется в искусственно созданной «профессиональной» ситуации, при выполнении своей роли демонстрирует активность и готовность выполнять необходимые трудовые действия, допуская отдельные недочеты; адекватно реагирует на развитие и неожиданные повороты игрового «профессионального» сюжета, создаваемого преподавателем в режиме реального времени; старается «профессионально» взаимодействовать с другими участниками игры (своими «деловыми» партнерами); задания, полученные в ходе игры, выполнены с небольшими недочетами; при обсуждении результатов игры проявляет критичность по отношению к самому себе.

0 баллов выставляется обучающемуся, если он не справился с выполнением трудовых действий, необходимых по доставшейся ему роли в искусственно созданной «профессиональной» ситуации; при выполнении своей роли демонстрирует отсутствие элементарных знаний, вследствие чего пассивен и теряется при неожиданном развитии игрового «профессионального» сюжета, создаваемого преподавателем в режиме реального времени; вынужденно и неэффективно взаимодействует с другими участниками игры (своими «деловыми» партнерами); задания, полученные в ходе игры, не выполнены или выполнены с грубыми ошибками; при обсуждении результатов игры не способен дать адекватную профессиональную оценку своим действиям.
